A Tardy Exeneration Now Made by the Man Who Accused Him of Embezzlement.

The body of Willie Day, the famous r champion distance-runner, was found hanging from a tree in the woods of the New Jersey Athletic Club boat-house, at Bergen Point, this morn-

He had doubtless committed suicide, and from indications had been dead two days before his body was discovered. Day's body was found at 11 o'clock morning hanging to a scrub oak i the stretch of woods on the Newark shore, near Fifth street, and in full view of the athletic club-house.

It was discovered by John Wintz and Edward Magner, boys who were minding cows. The boys promptly notified an Dwight Lord, and he cut the body down and had it conveyed to the According to Lord's statement, Day had evidently climbed upon a lower limb of the tree, and after adjusting a piece ck swung one end over a limb above have jumped off the limb upon which An examination of the body

Orders to Move. The Health Department has not yet eard the last of the squatters in Harem. A few months ago the Department made a determined effort to drive all the occupants out of their wretched hovels on the rocks or in vacant lots

along Park, "salisson and Fifth avenues. Among those forced out was John Kelly, who, with his family, has been a squatter for a number of years. He had lived with his wife and four children in a shanty at the northwest corner of Fifth avenue and One Hundred and Twelfth street.

snanty at the northwest corner of rith avenue and One Hundred and Twelfth street.

When he was driven out by the sanitary police, he moved into a chicken coop at 6 East One Hundred and Twelfth street. There are no windows in the shanty, which lies about fifteen feet below the level of the sidewalk. There is neither water supply nor sewer connection, and the owners and tenants of near-by flat-houses have repeatedly complained to the Board of Health. The Kellys get their water from a hydrant on the corner of One Hundred and Twelfth street and Fifth avenue.

The health officers have called on the Kellys several times. The last one, who visited the place a week ago, told Mrs. Kelly that he would notify her when she would have to move. The Kellys plead poverty. They say the Sanitary Police are lenient with Kelly because Mrs. Kelly has done sewing for some official of the Health Board.

Jacob Ollerman, a celiar cleaner, keeps a horse in a stable on Fifth avenue, south of One Hundred and Twelfth street. His stable has no sewer connection, and the Department has been after him several times.

standing reproach to the District-Attorney's office."

"I fully concur with you," replied the Recorder, "and take great pleasure in being enabled to reinstate Mr. Joseph in the good esteem of his fellow-practitioners and of the community at large. "To allow this indictment to stand would undoubtedly work an irreparable injury to Mr. Joseph's character, against whom, as far as I can see, there is not the least scintilla of evidence to make him chargeable with a crime. The indictment is dismissed."

The alleged crime for which Mr. Joseph was indicted was that he had in his possession the books of Ketchum & Jonas, clothlers, of 510 Broadway, who had falled in business, and who are still under indictment, charged with falsifying entries. Mr. Joseph was their attorney.

charge of embezzling \$150 from M. A. Stoner, manager of the Manhattan Laundry in Jersey City, by whom he was employed as a collector. The case was to have been heard on Tuesday before Justice Potts in Jersey City. On that day the prisoner failed to appear, and his counsel. Lawyer Benney, of Bayonne, urged a postponement. He was unable to say where his client was, but promised to produce him in court on Monday. Justice Potts agreed to defer the case until that day, and Lawyer Benney, deposited a bond of \$500 for his \$100.000 for the Trust. The firm in question denied the truth of the report, and bankers who ought to know what is going on declared that they, too, were in ignorance of the consummation of any such a transaction. Nevertheless, the idea prevails that the Trust has in some way obtained the money and that the officials are keeping quiet, with the idea of mystifying the public and giving the stock a big lift after the Tariff bill becomes a law.

The dimensions of the plate are five feet by six, and ten and a half inches thick, and it was to be tested in competition with Harveylzed plates. It was mounted and bolted against a strong oaken backing. The projectiles intended to be used were Midvale-Holtzer steel-piercing shells of eight-inch calibre.

The first shot fired broke the plate in three triangular pieces. The shell went through and was found imbedded in the oaken backing just back of the plate.

Another shot was fired, which broke the top section of the plate in several pieces and went into the gand butt.
